

# Knife Trolley

The solution for safe storage and practical transport of knives and tools

## Description Knife Trolley

The original POLAR knife trolley is the organization system for machine knives, tools and accessories.

It offers space for 10 knives on the back. There is plenty of storage space behind lockable doors and in two drawers. The cutting bars are deposited on the side, so that all the required parts are well sorted and within easy reach at all times.

The large work surface facilitates preparatory work and assembly directly on the knife carriage.

Movable rollers make it easy to transport the knife trolley to any cutting machine

## Customer benefits

- ❖ Complete equipment for a knife change always in one place
- ❖ Knives and tools always ready to hand and sorted
- ❖ The easy transport thanks to four movable rollers relieves the operator physically enormously.
- ❖ Suitable for all POLAR knife sizes
